

Quality Care Heating Products for Active Hunting and Field Dogs

Every Dog Deserves Stanfield® Heat Pads.

The most safe, reliable, and economical heat for your kennel and your most important field animals.

Provides evenly distributed heat to block the cold.

Keeps your dog safely and gently warm through cold winter nights.

Your pet thrives with a warm surface to lie on or against. At full power, surface is 30 to 35 °F above air temperature.

- Rigid, non-porous surface.
- Hygienic and easily cleaned.
- One-year warranty on materials and workmanship.
- Certified to all UL, CSA, and CE standards.

Stanfield Heat Pads have been used safely in commercial livestock production for over 25 years. Made of special flame and heat-resistant reinforced polymer with durable, low-temp heater.

Stanfield® F911 Power Control Lets You Set the Temperature and Save Energy

The F911 plugs into any 110-120 volt outlet to manually control power level to your Stanfield Heat Pads. Adjust output to fit your circumstance. With two built-in outlets, its 600-watt capacity handles two heat pads at once. Always use a Stanfield Power Control for best and most economic use of your Stanfield Heat Pads.

New Heat Pad Control

Model F300 has been added to our line of Stanfield heat pad controls, for single heat pad temperature adjustment. The F300 is a 300-watt, UL listed, plug-in control. No tools are required for installation. Its thermoplastic enclosure is rugged, heat-resistant and compactly built. The F300 Stanfield Heat Pad control features a high-to-low on-off switch.

Heat Pad and Control Combo Box

Stanfield Heat Pads now have available for you a new package that saves you money. It's the new heat pad and control combo

box, all you need in one package at a better price. This new combo box includes one model PP1824, 1.5 x 2-ft heat pad and the new model F300 control.

Order your combo box, plug the heat pad in the control, plug the control in your wall outlet and your Stanfield Heat Pad is ready to work!

Stanfield® Temp Probe

This convenient hand-held infrared thermometer produces instant readings to help you maintain the best heat source for your pets. Laser pointer lets you know where you are measuring. Many other uses for this handy device.
